

Our award-winning recruitment marketing suite is designed to ensure you have engaged, high-quality candidates ready when you need them. Optimize your operations with fully integrated CRM, job posting, career site, and apply solutions.

Fill your critical positions faster

- Simplify, automate, and optimize talent attraction and sourcing
- Build strategic audiences to personalize candidate engagement
- Meet candidates where they are with email, text, web, and social campaigns
- Leverage AI-powered sourcing to drive qualified applicants with Zero-Click Intelligent Sourcing
- Track marketing effectiveness and ROI with enterprise-grade analytics

Win more of the best candidates

- Provide the most relevant job search results through integration with Google Cloud Talent Solution and predictive job recommendations
- Support your diversity, student, and other hiring programs with candidate experiences aligned around your audience strategies
- Apply processes are mobile and social-enabled with no login required
- Re-engage applicants where they left off in the apply process
- Easily extract resume and social profile data into your integrated ATS

Get more done with the resources you have

- Automatically distribute job descriptions and social recruitment content to job boards, social media sites and agency partners
- Post opening to relevant job boards based on the job attributes
- Automate audience segmentation and communication via email and text
- Centrally manage and communicate effectively with external agencies to control costs and eliminate inefficiencies
- Deep, pre-built HRIS integrations give visibility to analyze and optimize job description effectiveness preferences

Master your complex enterprise environment

- Out-of-the-box integrations with resume databases, job boards, ATS and HCM providers
- Performance metrics for sources, channels, programs, and activities
- Support for multiple employer brands
- Multi-location candidate search
- Multilingual career site and applications
- ADA and WCAG 2.1 level AA compliant

Addresses all recruitment marketing process areas

- Single candidate record
